AI driven insights

OneLake for all domains

A true **hub & spoke data mesh** across organizational data domains.

OneLake

Workspaces and artifacts for different data domains, contribute to building the same data lake.

Without data movement, data from different domains can be analyzed, blended and transformed together.

Data is secured and governed in one place while remaining easily discoverable and accessible to all who should have access across the organization.

Data can be certified by domain experts to enabling trust for data which is discovered.

How do you create innovation with Microsoft Fabric?

PAST

Difficult to access
and utilize

Stored in silos

Product of IT

Change moves
slowly

Trustable data

PRESENT

Freely available

Utilized to drive change

Low barrier of entry

Data driven culture

Empowering users

Governed and trustable

FUTURE

AI assisted insights

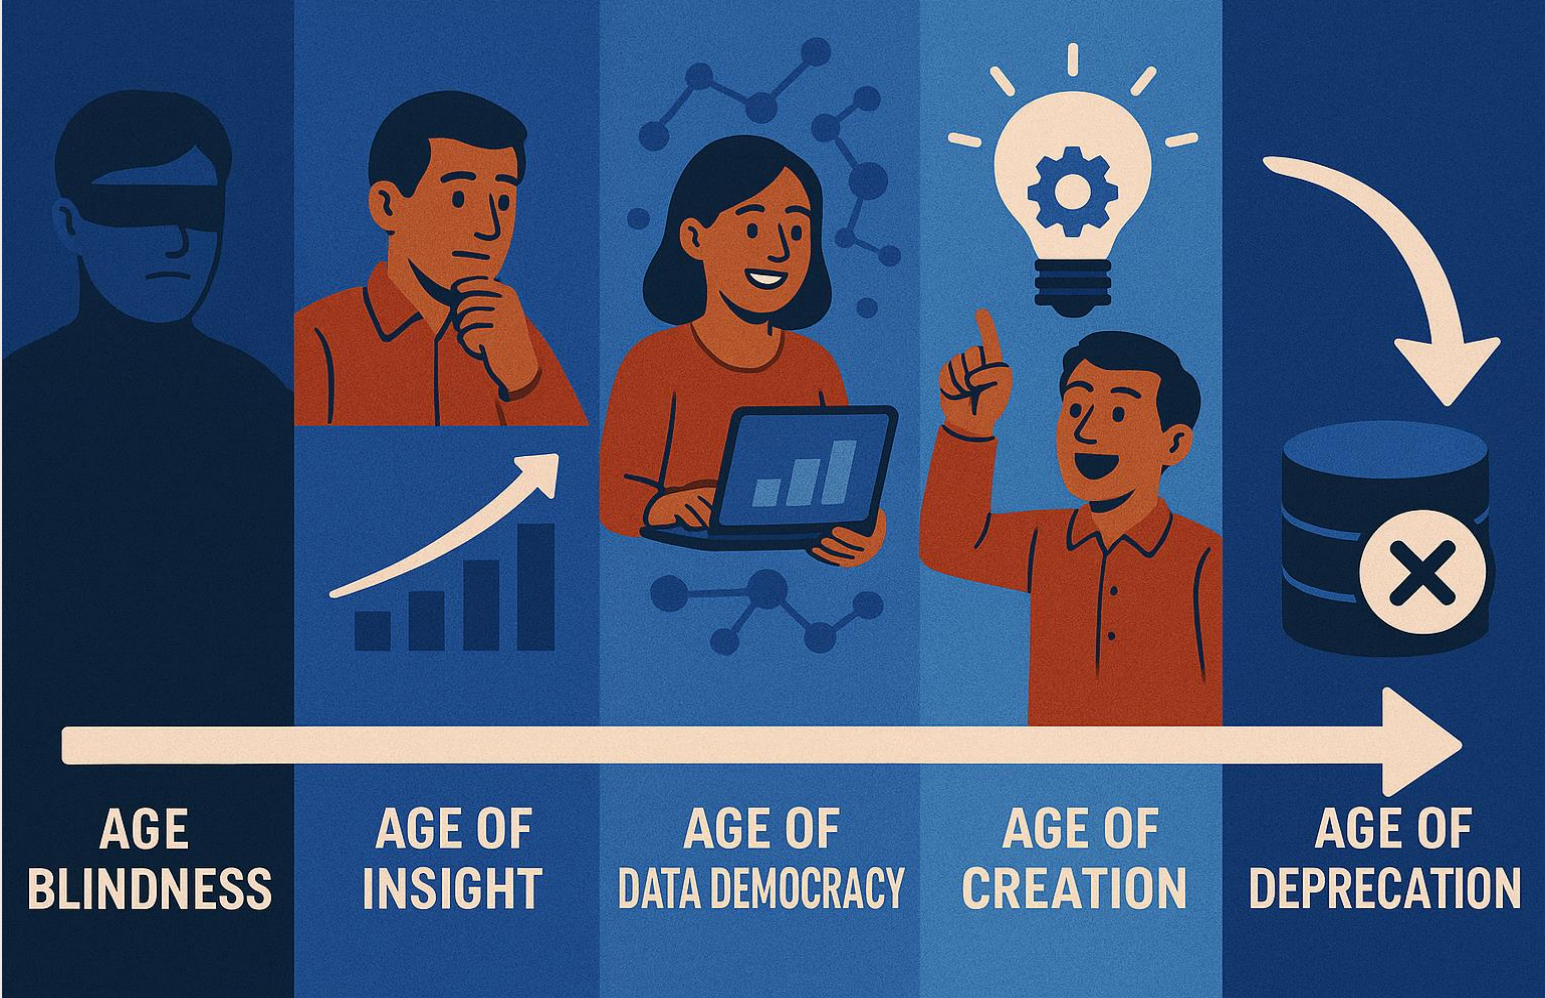

AI and Data as everyday
toolsets

Citizen analysts

Citizen developers

Data as an organic product

A timeline of data and innovation

Age of deprecation

Graveyard of good ideas and innovations

IT DEPARTMENT

**GOVERNING
AND ACTING AS
A CONTROL FUNCTION**

**PRODUCING
AND SERVING**
